

Exam Number/Code:70-332

Exam Name: Advanced Solutions of
Microsoft Share Point
Server 2013

Version: Demo

Topic 1, Tailspin Toys

Background

You are planning a SharePoint deployment. The new farm will host several business solutions including:

www.TailspinToys.com

Tailspin360.TailspinToys.com

MyTailspin.TailspinToys.com

All employees have Active Directory Domain Service (AD DS) accounts. Members of the SalesUsers AD DS security group are the only users with permissions to create My Sites sites.

Business Requirements

www.TailspinToys.com

www.TailspinToys.com is an Internet business site that will provide eCommerce capabilities including a product catalog, a shopping cart, and an account settings page.

Tailspin360.TailspinToys.com

Tailspin360.TailspinToys.com provides a business intelligence (BI) solution for the Sales team. It must allow users to share Microsoft Excel workbooks and build dashboards.

Tailspin360.TailspinToys.com accesses data that is located in various repositories including Microsoft SQL Server.

MyTailspin.TailspinToys.com

MyTailspin.TailspinToys.com is a social collaboration environment that provides micro-blogging, file and video sharing, and the ability to create personal blogs and wikis for Tailspin Toys employees.

Technical Requirements

General

The farm must be made fault tolerant by using virtualization.

The farm must include two front-end web servers.

Page requests must be distributed equally across the front-end web servers. All content must remain available to users if one of the front-end web servers becomes unavailable.

All Sales department employees are members of the SalesUsers group. All customer, order, and product information will be stored in tables in a Microsoft SQL Server database.

The User Profile service application is provisioned but not configured.

www.TailspinToys.com

You must create a version of the site that provides an optimized experience for Windows Phone devices. You have created a device channel that detects the user-agent.

The website must support English (United States), Spanish (Mexico), and German (Germany). All content is authored in English and then translated into Spanish and

German by an outside vendor. Translations are performed by humans.

Tailspin360.TailspinToys.com

The site must be accessible only to members of the Sales team. Users must be able to access order information that is stored in a SQL Server database.

Developers must be able to import Business Connectivity Services (BCS) models by using Central Administration.

The salesAccess shared domain account has permissions to read data from the database.

Excel workbooks published to a document library app must be opened in a browser. Excel workbooks in other locations must open in Excel.

MyTailspin.TailspinToys.com

You need to provision a SharePoint environment that supports My Sites for an enterprise. You need to ensure the SharePoint Server configuration supports the ability to create individual site collections the first time a user accesses the My Site page. All users need permissions to create My Sites sites.

QUESTION: 1

- (Topic 1)

You need to meet the site collection creation requirements for MyTailspin.TailspinToys.com.

Which steps should you take? (Each correct answer presents part of the solution. Choose all that apply.)

- A. Ensure that the Setup My Sites setting for the User Profile service application uses the URL of the My Site host site collection and a wildcard inclusion.
- B. Ensure that the Setup My Sites setting for the User Profile service application uses the URL of the My Site host site collection and an explicit inclusion.
- C. Grant the Create Subsites permission to each user.
- D. Grant the Create Personal Site permission to each user.

Answer: A,D

QUESTION: 2

DRAG DROP - (Topic 1)

You need to configure authentication for the Tailspin360.TailspinToys.com site.

Which three actions should you perform in sequence? (To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.)

	Answer Area
Create a new Secure Store target application named Sales . Specify a target application ID of SalesReports and a target application type of Group .	
Add the SalesUsers group as a member of the Secure Store target application. Configure the Set Credentials option of the Secure Store target application to use the salesAccess account.	
Specify the Target Application ID for the Secure Store Service (SSS) field in the Excel Services authentication settings.	
Specify the Friendly Name for the Secure Store Service (SSS) field in the Excel Services authentication settings.	
Create a new Secure Store target application named Sales . Specify a target application ID of SalesReports and a target application type of Individual .	
Add the salesAccessaccount as a member of the Secure Store target application. Configure the Set Credentials option of the Secure Store target application to use the SalesUsers group.	

Answer:
